DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-8 and 12-13 are rejected under 35 U.S.C. 102(a) as being anticipated by Ryall (USPN 6382841).

Ryall teaches all of the claimed limitations including an optical coupling collar having a tubular structure with a cylindrical cavity (206) for receiving a GRIN lens, a second rectangular cavity (210) for receiving a thin film filter (column 8, lines 64-65) and the bonding of the lens and the filter to the coupling collar via an adhesive (column 11, lines 40-45 and column 12, lines 52-55). Ryall also teaches a non-adhesive method of mounting the lens and filter (column 9, lines 36-44) and accommodates for a variety of configurations and offset for the mounting of the lens (column 10, lines 31-36). Ryall also teaches the newly added limitations of the length of the first receiving portion being less than the length of the Graded Index lens (Figure 5B) and the second receiving portion being equal to a corresponding length of the filter (i.e., fully received) (column 10, lines 25-27) as claimed in amended claim 1 and newly added claim 14.

Response to Amendment

The examiner has considered the arguments of the applicant's representative and has found them to be moot. The cited reference, Ryall (USPN 6382841), teaches all claimed limitations of the instant invention and anticipates each and every element of the claims as amended by Amendment A, filed May 14, 2003.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
